---

## Verba 3.0 SR3 Release Notes (build 3.0.3000)

This document lists new features and fixes released in Verba 3.0 SR3 Release Notes (build 3.0.3000).

**Release Date** 2006-08-14

**Document Download Date** 2022-09-28

### Release highlights

ID	Component	Description
RI-001793	Security	Security improvements with password policies and user locking and HTTPS as default web interface configuration
RI-001792	Recording - Passive	Performance optimizations in recording engine

## Known Critical Issues

There are no known issues in this build.

## Critical Fixes

There are no new critical fixes in this build.

## Feature Improvements

ID	Component	Description	Added in	Date
RI-001797	Security	New user lock feature provides additional security by locking users after preset number of wrong login attempts are made		2014-08-10
RI-001800	Security	New automatic HTTPS configuration. From this Service Release HTTPS is automatically available for Verba Web Application. HTTP support can be disabled through a new configuration variable.		2014-08-10
RI-001794	Recording - Passive	Performance optimization		2014-08-10
RI-001714	UI - Web Interface	New serialization feature in Verba Reporting Tool automatically enables the use of file system instead of memory in various circumstances. This approach provides better reliability for report generation.		2014-08-10
RI-001715	UI - Web Interface	New group logo support enables attaching logo images to groups. Images are displayed on the web interface and in the headers of reports.		2014-08-10
RI-001716	UI - Web Interface	New group query feature allows Administrators to associate saved queries to a given group		2014-08-10
RI-001796	UI - Web Interface	New password settings: minimum password length, password phrase must include at least one uppercase letter (optional), password phrase must include at least one numeric character (optional), password phrase must include at least one special character (optional), passwords expire (optional), passwords cannot match items in password history (optional)		2014-08-10
RI-001798	UI - Web Interface	New call listing feature on Employees calls page enables to list calls of an entire group		2014-08-10
RI-001799	UI - Web Interface	New marker feature through the Verba XML Service. During ongoing call users are able to add markers by pressing a button on the phone. Verba player displays markers at a location that represents the time when the button was pressed.		2014-08-10
RI-001801	UI - Web Interface	New TXT (text) export format in Verba Reporting Tool. Text file based report export uses a simplified report layout design.		2014-08-10
RI-001717	Platform - Monitoring	New functions: SNMP trap support extended to all monitored functions, all monitoring and alert types can be enabled/disabled		2014-08-10
RI-001795	Platform - Storage Management	New Verba Sorter Service sorts audio/video files into subfolders according to the year/month/day. No effect on single-site systems, calls are automatically recorded into the new directory structure. In multi-site systems, the service runs on Media Repository server. Files recorded before this service release installation are automatically reorganized into the new day based directory structure.		2014-08-10

## Fixes

ID	Component	Description	Fixed in	Date
----	-----------	-------------	----------	------

RI-001718	Recording - Passive	Recording issues caused by certain non-compliant SCCP messages	2014-08-10
RI-001720	UI - Web Interface	Duplicate user entries created in special situations	2014-08-10
RI-001719	Platform - Storage Management	Wrong upload behavior when no transcoding settings are selected	2014-08-10
